

The logo for ITSKINS features the brand name in a bold, white, sans-serif font. The text is centered within a white outline of a hexagonal shape with rounded corners and a double-line border. The background of the entire image is a scenic landscape of rolling green hills under a bright, golden sunset sky, with a white smartphone case in the foreground on the right side.

ITSKINS

OUR STORY

THE BEST PROTECTION FOR YOU, YOUR DEVICE AND THE PLANET.

ANTIMICROBIAL

ITSKINS protective cases are made with a custom high-performance antimicrobial polymer. Blending our technology with the latest scientific advancements help keep your phone microbe and germ-free.

Device Protection

We design ITSKINS cases to offer the slimmest drop protection for almost any device. We were the first to make Certified Drop Protection affordable and uncompromising. We offer several options designed to fit your lifestyle.

SUSTAINABILITY

Sustainable cases in sustainable packaging. We control everything that comes into the ITSKINS ecosystem, so it has allowed us to radically reduce our environmental impact. We use natural and recycled raw materials and provide the best conditions we can for our people on the production floor.

OUR FACTORY

Our cases are produced in our own factory. Not many brands can say that. It's the biggest piece of gear we own. It makes us streamlined and efficient, and we wouldn't be here without it. The control we gain by owning our own factory makes us agile, reactive and fast.

**OUR
FACTORY
WORKS
FOR
YOU.**

SHORTER LEAD TIMES

We make our own production schedule. We're first with new launches and can prioritize you.

BRAND PARTNERSHIPS

Looking for a specific color or a certain feature? Chances are we can make it happen.

TOTAL TRANSPARENCY

We know how long it takes to make product- therefore, we know exactly how and when we can fulfill your order.

QUALITY CONTROL

We provide safe, ethical working conditions for our employees and have passed major audits and certifications.

**OUR
COMMITTMENT
TO
SUSTAINABILITY**

RECYCLED
RECYCLED
RECYCLED

RECYCLED MATERIALS

After 3 years of development, we're excited to share our new line of 100% recycled phone cases. Instead of discarding excess materials during manufacturing, we grind, them down into pellets, which are then injection-molded into antimicrobial, shock-absorbent, environmentally friendly phone cases. Just another step towards our goal of zero impact and zero waste.

IMPACTHANE built-in microbial defense fights against many common germs and reduces microbes by up to 99.99%*

RECYCLED

RECYCLE IT, AGAIN. THIS PACKAGING IS MADE FROM 100% RECYCLED FIBERS

100% Recycled. We're proud to announce that our packaging is now plastic free, made from recycled paper materials and printed with non-toxic vegetable ink.

OUR PATENTED PROTECTION TECHNOLOGIES

IMPACTHANE

ANTIMICROBIAL

ACTIVE 24//7

ITSKINS protective cases are made with our custom high-performance antimicrobial polymer. We not only protect your phone from everyday shocks and extreme impacts, but we also help keep your phone microbe and germ-free.

impactthane built-in microbial defense protects from many common germs and reduces microbes by up to 99.99%*

HEXOTEK™

HEXOTEK™

UNIQUE. SLIM. HEXOTEK.

ABSORBS AND DISPERSES
MULTI G-SHOCKS

Our signature HEXOTEK impact absorption technology is integrated into the interior perimeter of all our drop protection cases. Dual-layer air pockets disperse and transfer energy away from your device on impact.

HEXOTEK

Two enhanced layers of hex-tube shock dispersal micro-structure with edge-injected DUPOINT GEL for industry leading protection.

PLANT-BASED

FERONIA^{BIO}

**PROTECT YOUR PHONE.
PROTECT THE PLANET.**

Plant-Based Cases

Zero Waste – our FeroniaBio line of cases are made from renewable-sourced plant-based materials and have less of a CO2 footprint, than its petroleum-based equivalent. Impact Resistant – FeroniaBio features the same shock-absorption technology used in all ITSKINS cases.

FERONIABIO

FERONIABIO // TERRA

The first 100% compostable eco-friendly case with antimicrobial defense and advanced shock absorbing technology.

MSRP : \$ 49.95

PLANT // BASED Made from renewable bio-based materials derived from corn and wheat starch

COMPOST // READY 100% biodegradable in a composting environment. Breaks down in as little as 6 months.

GERM SHIELD // TECHNOLOGY Our custom antimicrobial polymer stays microbe and germ-free.

ADVANCED // RAISED EDGES Signature lip designed to protect your screen and camera lens.

HEXOTEK

Six - sided drop protection coupled with honeycomb shock absorbing technology

impactthane built-in microbial defense protects from many common germs and reduces microbes by up to 99.99%*

FERONIABIO

FERONIABIO //TERRA

FERONIABIO / TERRA powerfully safeguards your phone with intelligent Drop Safe Protection. Impact is absorbed, dissipated and repelled by air cushion technology used along the sides, crowns and the 4 corners of the case . Available in many colors, **FERONIABIO / TERRA** is the ultimate combination : Bio Based, Drop Safe, Slim and Lightweight.

FERONIABIO

FERONIABIO // CLEAR

We're excited to announce the latest addition to our FERONIABIO line of plant-based cases - **FERONIABIO / CLEAR**. The first 100% clear bio-based case with antimicrobial defense and advanced shock-absorbing technology.

MSRP : \$ 49.95

ENVIRONMENTALLY // RFRIENDLY

This responsible Bio-based material has less of a CO2 footprint than its petroleum base equivalent.

REDUCE // REUSE

At the end of life, the Bio-TPU in **FERONIABIO / CLEAR** is 100% recyclable, enabling circularity in manufacturing and re-use applications

PLANT // BASED

Made from renewable-sourced bio-based materials

CRYSTAL // CLEAR

Our first clear, recyclable case won't turn yellow over time
