SAMSUNG

THE BEST PROTECTION FOR YOU, YOUR DEVICE AND THE PLANET.

ANTIMICROBIAL

ITSKINS protective cases are made with a custom high-performance antimicrobial polymer. Blending our technology with the latest scientific advancements help keep your phone microbe and germ-free.

DEVICE PROTECTION

Blending our technology with the latest scientific advancements to help keep your phone microbe and germ-free.

SUSTAINABILITY

Sustainable cases in sustainable packaging. We control everything that comes into the ITSKINS ecosystem, so it has allowed us to radically reduce our environmental impact. We use natural and recycled raw materials and provide the best conditions we can for our people on the production floor.

OUR FACTORY

Our cases are produced in our own factory. Not many brands can say that. It's the biggest piece of gear we own. It makes us streamlined and efficient, and we wouldn't be here without it. The control we gain by owning our own factory makes us agile, reactive and fast.

OUR STORY

OUR FACTORY WORKS FOR YOU.

SHORTER LEAD TIMES

We make our own production schedule. We're first with new launches and can prioritize you.

BRAND PARTNERSHIPS

Looking for a specific color or a certain feature? Chances are we can make it happen.

TOTAL TRANSPARENCY

We know how long it takes to make product- therefore, we know exactly how and when we can fulfill your order.

QUALITY CONTROL

We provide safe, ethical working conditions for our employees and have passed major audits and certifications.

OUR COMMITTMENT TO SUSTAINABILITY

RE:CYCLED

PRODUCED PROUDLY
IN OUR FACTORY

ZERO IMPACT - WASTE

Our goal is to make all of our cases 100% recyclable and we're well on our way! We're constantly working towards it, doing research and adopting sustainability technology techniques as they become available. v

100% RECYCLABLE

Just toss it in the recycling bin. The materials used in these cases are 100% recyclable so they can be collected, processed and manufactured into new products after they have been used.

OUR SOLID RANGE IS MADE FROM RECYCLED MATERIAL

Instead of discarding excess materials during manufacturing, we grind them down into pellets, which are then injection-molded into antimicrobial, shock-absorbent, environmentally friendly cases.

IMPACTHANE built-in microbial defense fights against many common germs and reduces microbes by up to 99.99%*

RE:CYCLED

RECYCLE IT, AGAIN.

THIS PACKAGING IS MADE FROM 100% RECYCLED FIBERS
100% Recycled. We're proud to announce that our packaging is now plastic free, made from recycled paper materials and printed with non-toxic vegetable ink.

OUR PATENTED PROTECTION TECHNOLOGIES

IMPACTHANE

ANTIMICROBIAL

ACTIVE 24/7

ITSKINS protective cases are made with our custom high-performance antimicrobial polymer. We not only protect your phone from everyday shocks and extreme impacts, but we also help keep your phone microbe and germ-free.

Impactthane built-in microbial defense protects from many common germs* and reduces microbes by up to 99.999%*

HEXO-TEK™

**UNIQUE.
SLIM.
HEXO-TEK.**

**ABSORBS AND DISPERSES
MULTI G-SHOCKS**

Our signature HEXOTEK impact absorption technology is integrated into the interior perimeter of all our drop protection cases. Dual-layer air pockets disperse and transfer energy away from your device on impact.

HEXOTEK

Two enhanced layers of our patented hex-tube shock dispersal micro-structure for advanced device protection

3 METER 10 FEET

ANTI SHOCK PROTECTION

- Anti Shock Safe
- **IMPACTHANE™** Anti Bacterial Polymer
- **HEXOTEK™ XTRA™** Air Crowns and Bumper
- 3 x Military Grade Standard 810G Drop tested
- Premium drop protection – up to 3M/ 10 Feet
- Raised Edges
- Super Slim
- **SPECTRUM™** Flex Construction
- **HYBRID™** Hard Back Construction

HYBRID

HYBRID // CLEAR

This slim, crystal-clear case lets you show off your phone's premium design. With an optical-grade acrylic armor hardback, **HYBRID // CLEAR** offers the ultimate in drop protection and antimicrobial defense for your device.

MSRP : \$ 49.95

GERM SHIELD // TECHNOLOGY Our custom antimicrobial polymer stays microbe and germ-free.

OPTICAL-GRADE // HARDBACK Dual material construction with an optical-grade acrylic armor hardback.

ADVANCED // RAISED EDGES Signature lip designed to protect your screen and camera lens.

ULTRA RESPONSIVE // BUTTONS Enhanced buttons with crisp, tactile reactivity.

HEXOTEK

Two enhanced layers of our patented hex-tube shock dispersal micro-structure for advanced device protection

IMPACTHANE

Impacthane built-in microbial defense protects from many common germs and reduces microbes by up to 99.99%

Designed for
SAMSUNG

HYBRID

HYBRID // CLEAR

The slim, lightweight design won't add extra bulk to your phone. Raised edges shield the screen and camera against everyday bumps and scratches. Our custom high-performance antimicrobial polymer helps keep your phone microbe and germ-free. **HYBRID // CLEAR** has been Eco-Designed, using recyclable materials* and produced with sustainable methods wherever possible.

MSRP : \$ 49.95
